Respiration Physiology 101 (1995) 341–342

RESPIRATION PHYSIOLOGY

Contents of Volume 101

No. 1, July 1995

Frontiers Review

J. Fandrey (Germany) Hypoxia-inducible gene expression 1

Research Articles

J. Pizarro, M.L. Ryan, M.S. Hedrick, D.H. Xue, I.M. Keith and G.E. Bisgard (USA) Intracarotid Substance P infusion inhibits ventilation in the goat 11

A.K. Curran, K.D. O'Halloran and A. Bradford (Ireland) Effects of superior laryngeal nerve section on ventilation in neonatal guinea-pigs 23

F.B. Sant'Ambrogio, J.W. Anderson, S.T. Kuna and G. Sant'Ambrogio (USA) Effect of changes in airway surface liquid on laryngeal receptors and muscles 31

P.A. Flume, F.L. Eldridge, L.J. Edwards and L.M. Houser (USA) Relief of distress of breathholding: separate effects of expiration and inspiration 41

K. Tatsumi, C.K. Pickett and J.V. Weil (USA, Japan) Decreased carotid body hypoxic sensitivity in chronic hypoxia: role of dopamine 47

D. Rose, J. Khater-Boidin, P. Toussaint and B. Duron (France) Central effects of 5-HT on respiratory and hypoglossal activities in the adult cat 59

P. Pianosi and T. Marchione (Canada) Hypoxic response is inversely related to degree of exercise hyperventilation 71

W. Hida, S. Okabe, H. Miki, Y. Kikuchi, H. Kurosawa, T. Takishima and K. Shirato (Japan) Submental stimulation and supraglottic resistance during mouth breathing 79

R.L. Hughson (Canada) Coupling of ventilation and gas exchange during transitions in work rate by humans 87

P.R. Miles, L. Bowman and D.G. Frazer (USA) Properties of lavage material from excised lungs ventilated at different temperatures 99

No. 2, August 1994

Frontiers Review

S. Adnot, B. Raffestin and S. Eddahibi (France) NO in the lung 109

Research Articles

L. Yuan and B.S. Nail (Australia) A differential bronchomotor response to cooling and drying the upper airway 127

M.S. Hedrick, M.L. Ryan and G.E. Bisgard (USA) Recurrent laryngeal nerve activation by α_2 adrenergic agonists in goats 129

X.B. Mou, L.S. Howard and P.A. Robbins (UK) A protocol for determining the shape of the ventilatory response to hypoxia in humans 139

D.R. Corfield, M.J. Morrell and A. Guz (UK) The nature of breathing during hypocapnia in awake man 145

I.R. Moss, R.E. Faltus, J.D.G. Inman and A. Laferrière (Canada) Cardiorespiratory and sleep-wake behavior in developing swine: κ-opioid influence 161

W.L. Sexton and D.C. Poole (USA) Costal diaphragm blood flow heterogeneity at rest and during exercise 171

D.L. Turner, H. Hoppeler, J. Hokanson and E.R. Weibel (Switzerland, UK, USA) Cold acclimation and endurance training in guinea pigs: Changes in daily and maximal metabolism 183

H. Hoppeler, E. Altpeter, M. Wagner, D.L. Turner, J. Hokanson, M. König, V.P. Stalder-Navarro and E.R. Weibel (Switzerland, UK, USA) Cold acclimation and endurance training in guinea pigs: changes in lung, muscle and brown fat tissue 189

M. Yamaya, T. Fukushima, K. Sekizawa, T. Ohrui and H. Sasaki (Japan) Cytoplasmic motility reflects phagocytic activity in alveolar macrophages from dog lungs 199

T. Nakano, K. Miyamoto, A. Aida, Shunichi, Saito, M. Nishimura and Y. Kawakami (Japan) Effects of platelet depletion on PMA-induced acute lung injury in awake sheep 207

No. 3, September 1994

Frontiers Review

A.C. Bonham (USA) Neurotransmitters in the CNS control of breathing 219

Research Articles

M. Szereda-Przestaszewska and B. Wypych (Poland) Effects of vagal and laryngeal afferents on apnoeic response to serotonin in cats 231

F. Wallois, J.-M. Macron and B. Duron (France) Activities of vagal receptors in the different phases of sneeze in cats 239

M.A. Haxhiu, C.H. Chang, I.A. Dreshaj, B. Erokwu, N.R. Prabhakar and N.S. Cherniack (USA) Nitric oxide and ventilatory response to hypoxia 257

P. Dhawale and E.N. Bruce (USA) Estimation of hypoxic ventilatory dynamics using pseudorandom inputs 267

J. Verbraecken, W. De Backer, M. Willemen, W. De Cock, W. Wittesaele and P. Van de Heyning (Belgium) Chronic CO_2 drive in patients with obstructive sleep apnea and effect of CPAP 279

M.L. Burleson and W.K. Milsom (Canada) Cardio-ventilatory control in rainbow trout: II. Reflex effects of exogenous neurochemicals 289

W.D. Reid, A. Ng, R.K. Wilton and W.K. Milsom (Canada) Characteristics of diaphragm muscle fibre types in hibernating squirrels 301

W.K. Milsom and W.D. Reid (Canada) Pulmonary mechanics of hibernating squirrels (*Spermophilus lateralis*) 311

M.H. Wilkinson, P.J. Berger, N. Blanch and V. Brodecky (Australia) Effect of venous oxygenation on arterial desaturation rate during repetitive apneas in lambs 321

Erratum

J.W. Ryan and T.G. Waldrop (USA) Erratum to "Hypoxia sensitive neurons in the caudal hypothalamus project to the periaqueductal gray". [Respir. Physiol. 100 (1995) 185–194] 333
